Dear Hiring Manager,

I am writing to express my interest in any available opportunities in the fields of Software Development, Information Technology, or Cybersecurity. As a soon-to-be graduate in Computer Science from Beirut Arab University, I am passionate about technology and committed to continuous learning and problem-solving.

Throughout my academic journey, I have developed solid experience in programming with Java and Python and I am confident in my abilities in networking and system administration. I have also obtained certification in Cisco technologies and IC3, which have strengthened my understanding of IT infrastructure and security fundamentals. My coursework and hands-on projects have equipped me with the technical and analytical skills necessary to contribute effectively to a professional team.

In addition to my academic background, I am an active volunteer with the Scouts, where I have honed my teamwork, leadership, and communication skills. I am motivated, detail-oriented, and always eager to take on new challenges to grow both personally and professionally.

I would be grateful for the opportunity to discuss how I can contribute to your team. Thank you for considering my application. I look forward to the possibility of an interview to further demonstrate my qualifications.

Sincerely,
